

## Letter of Recommendation

I am pleased to write this Letter of recommendation supporting Mr Priyanshu Singh's Virtues, mannerism, and Academic Excellence. Although due to the undertaking of Corporate responsibilities, Priyanshu opted to Don Bosco as an External Student, I did communicate with him frequently whenever the need to submit an assignment or write an exam occurred.

Priyanshu is very diligent towards his studies and always submitted the coursework and other assignments on time. He is punctual and always prepares well before any important test or exam. Out of all the external students, he scored the highest, which leads me to believe he is also very intelligent and focused on any task he undertakes.

Priyanshu was also running his Company during the days of the final exams. This massive undertaking of responsibilities tested him to the limit throughout the year. His focus and his ability to make the best out of time and resources enabled him to not only manage both his academics and corporate responsibilities but even excel outstandingly in both. Due to the Coronavirus situation in India, the exams had an incredibly tight schedule. All five exams were conducted within ten days. Priyanshu still managed to score 84% throughout the adverse situation. It seems he grasps economic and business concepts quickly and learns to apply them in real-life situations.

In summary, Priyanshu overperforms in any responsibility he takes up. He would not only be an excellent choice for your University, but he would also contribute to any Activities and Projects your University conducts. I would implore you to look into Priyanshu's Corporate Letter of Recommendations as they will have in-depth insights into his day to day conduct and performance.

My Best Regards,

*Williams*
